***Response to Amendment***

The reply filed on June 27, 2005 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

Claims 1-13 are directed to the invention as originally claimed. In the June 27, 2005 response, applicant canceled claims 1-13 and added claims 14-41.

Newly submitted claims 14-41 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Claims 1-13 are drawn to an integrated software system for intellectual property management programmed to perform the functions of accepting input relating to tracking, storing the input and providing output indicative of the stored data.

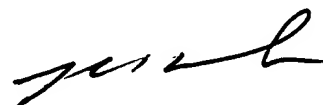

Claims 14- 37 are drawn to a method and medium for processing and presenting data corresponding to unpatented inventions, the method comprising the steps of maintaining at least one database containing a plurality of unpatented invention titles and presenting to a user at least one screen that displays one of the plurality of unpatented inventions.

Claims 38-41 are drawn to a method and medium of tracking data regarding a plurality of inventions each having an invention stage that is one of at least two stage types, the data having a plurality of data types, the method comprising the steps of displaying to a user a plurality of input fields, allowing the user to request an invention report that contains a portion of the plurality data types, and automatically generating the invention report.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 14-41 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Since the applicant has canceled claims 1-13, there are no claims remaining in this application.

See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
